

COG 326 - TURKEY CENTRAL REGIONS - Fen Edebiyat Fakültesi - Coğrafya Bölümü

General Info

Objectives of the Course

By examining Turkey's inland regions from physical and geographical perspectives, the course aims to foster an understanding of the geographical foundations of regional development in Turkey and to emphasize that each region possesses distinct conditions and opportunities, which must be carefully considered when making investment decisions.

Course Contents

The natural environmental conditions of Turkey's inland areas that are distant from maritime influences, the ways in which these conditions are shaped by human activities, and the challenges currently faced by these regions are examined through cause-effect relationships.
