YBD 101 - FOREIGN LANGUAGE I - Mühendislik Mimarlık Fakültesi - İnşaat Mühendisliği Bölümü General Info

Objectives of the Course

The aim of this course is to develop students' basic English language skills (reading, writing, listening, and speaking) to enable them to communicate effectively in daily and academic contexts.

Course Contents

This course covers basic English grammar, reading comprehension, writing, listening comprehension, and speaking skills. Students will learn everyday expressions and develop their language skills through various activities.

Recommended or Required Reading

Oxford University Press Headway Beginner 5th Edition coursebook , bilgisayar

Planned Learning Activities and Teaching Methods

This course is delivered online and is primarily designed as a communication-based and task-oriented lecture. It also includes listening, reading, writing, and speaking activities.

Recommended Optional Programme Components

The online activities of the textbook are also covered during the course and assigned as homework.

Program Outcomes

1. Expand vocabulary for simple, context-specific conversations at the A1 level.
2. Improve reading comprehension by analyzing short texts and identifying key information.
3. Learn and use basic grammar rules at A1 level.

Order	PreparationInfo	Laboratory TeachingMethods	Theoretical	Practise
1	Headway Beginner Student's Book 5th Edition, pages (8-10)	Lecture, question-answer	Basic dialogues regarding greetings and introductions	
2	Headway Beginner Student's Book 5th Edition, pages (11-13)	Lecture, question-answer	Common objects, numbers	
3	Headway Beginner Student's Book 5th Edition, pages (16-18)	Lecture, question-answer	Self-introduction subject pronouns, cities and countries	
4	Headway Beginner Student's Book 5th Edition, pages (19-21)	Lecture, question-answer	Question patterns, frequently used adjectives, numbers.	
5	Headway Beginner Student's Book 5th Edition, pages (24-26)	Lecture, question-answer	Professions, To be verb forms	
6	Headway Beginner Student's Book 5th Edition, pages (27-29)	Lecture, question-answer	Giving personal information, daily dialogues	
7	Headway Beginner Student's Book 5th Edition, pages (32-34)	Lecture, question-answer	Possessive adjectives, family members.	
8			Midterm Exam	
9	Headway Beginner Student's Book 5th Edition, pages (35-37)	Lecture, question-answer	Frequently used verbs in the Present Tense, introducing family members.	
10	Headway Beginner Student's Book 5th Edition, pages (42-44)	Lecture, question-answer	Sentence structures in Present Tense, frequently used nouns	
11	Headway Beginner Student's Book 5th Edition, pages (45-49)	Lecture, question-answer	Nations, adjective phrases, numbers, currencies.	
12	Headway Beginner Student's Book 5th Edition, pages (52-55)	Lecture, question-answer	Asking and telling the time, adverbs of frequency.	
13	Headway Beginner Student's Book 5th Edition, pages (56-59)	Lecture, question-answer	Words that go together, days of the week, prepositions of time	
14	Headway Beginner Student's Book 5th Edition, pages (62-65)	Lecture, question-answer	Question words, object pronouns, demonstrative pronouns	
15	Headway Beginner Student's Book 5th Edition, pages (66-69)	Lecture, question-answer	Adjectives, email writing, Modal "Can"

Table :

- P.O. 1 :** Recovery adequate knowledge in the field of mathematics, science and civil engineering; ability to use theoretical and applied information in these areas to model and solve Civil Engineering problems.
- P.O. 2 :** Ability to determine, identify, formulate and solve the sophisticated engineering problems, to select and apply appropriate methods and techniques for this purpose.
- P.O. 3 :** The ability of designing a complex system, process, device product under realistic constraints and conditions and to meet certain requirements; for this purpose, the ability of applying modern design methods.
- P.O. 4 :** Skill of development, selection, using modern techniques and tools are necessary for engineering applications, ability of using information technology effectively.
- P.O. 5 :** The ability of designing experiments to examine the engineering problems, conducting experiments, collecting data, analyzing and interpreting the results
- P.O. 6 :** Ability of working within single-disciplinary and multi-disciplinary teams effectively and skill of individual work.
- P.O. 7 :** Ability to express ideas and solution proposals using verbal, written and graphic expression techniques, ability to think in 3D, ability to creative in design issues.
- P.O. 8 :** Awareness of the life-long learning, the skills to access to the information, to follow the improvements in science and technology and continuous self-development
- P.O. 9 :** Awareness of professional and ethical responsibilities.
- P.O. 10 :** Knowledge about business life practices such as project management, risk management, and change management awareness of entrepreneurship, innovation, and sustainable development
- P.O. 11 :** Knowledge about contemporary issues and the global and societal effects of engineering practices on health, environment, and safety awareness of the legal consequences of engineering solutions
- L.O. 1 :** Expand vocabulary for simple, context-specific conversations at the A1 level.
- L.O. 2 :** Improve reading comprehension by analyzing short texts and identifying key information.
- L.O. 3 :** Learn and use basic grammar rules at A1 level.
