

Objectives of the Course

The aim of this course is to provide the participants with information about the basic aims and principles of labor law. In addition, this course aims to provide information about the responsibilities, rights and obligations of the parties in the field of occupational health and safety.

Course Contents

This course includes the basic concepts and principles of labor law and occupational health and safety legislation. In this context, especially the legal, administrative and criminal liability of the employer and the legal rights of the employees are within the scope of the course.

Recommended or Required Reading

1) Labor Law, Deniz Bayeren, 1st Edition, Seçkin Publications, Ankara, 2020. 2) Labor Law, Haluk Hadi Sümer, 24th Edition, Ankara, Seçkin Publications, Ankara, 2019. 3) Occupational Health and Safety Law, Haluk Hadi Sümer, 3rd Edition, Seçkin Publications, Ankara, 2019. 4) Labor Law Question Book, Deniz Bayeren, Seçkin Publications, Ankara, 2020. 5) Administrative, Criminal and Legal Liability in Occupational Health and Safety Law, Sami Narter, 5th Edition, Adalet Publishing House, Ankara, 2020. 6) Online presentation files.

Planned Learning Activities and Teaching Methods

In this course, it is planned to learn the basic concepts of labor law such as employment contract, employee, employer, employer representative and subcontractor, as well as the regulations brought by occupational health and safety legislation. Teaching methods such as transfer and interpretation of legislation, question-answer, discussion and test exercises will be used for targeted learning activities.

Recommended Optional Programme Components

One of the objectives of the program, which includes this course, is to prepare the ground for participants to obtain an "occupational safety specialist" certificate. Participants are advised to evaluate the course presentations together with the specialist certificate exam questions.

Instructor's Assistants

There is no instructor's assistant.
